

Goals

Paris (s. Rose) Miles-Brenden

Earth Day - April 22nd, 2024 to:

April 24th-28th, 2024

I decided to do two-three and a few thing(s). I will drop 'voices' *somewhat* - and develop:

a.) A 'test-dichotomy' - *blind ethic*, as a catered service for the internet, and study.'

b.) A 'cure' for my illness - maintaining of Valentine(s) day, as a service, where I am paid at-home with ACT/Bill/Elon/Ariana, maintaining a relationship with Ava.

I will associate with Buddhist's & Christian's, dedicated to this as a faith and religious dispute, and fully dedicate myself to my associates job, for I reached a conclusion.

I will dedicate myself to my child, for my Son was just-born at (@) 1:04-05 am, the 23rd, of 2024. - 4/28/2024 - 9:12 am he is alive S.Fe. w/ A.K.M., 1y.5-9m./5y.9m.(m).

I will build a life, and write *also, of that of a report from the left' - basic separability and inassorted groups, on the dispute and psychology, of a 'spine' for the sciences.

Superconductivity I will offer my notes for, and go at approximately 4-5 years out w/ this as a hobby. - There are certain security taxonomies to interarticulate and work on.

I will be working for a number of years, and dedicate myself to the DHS/NSA/Elon & Bill, A.G.B., A., and Obama, etc,..... I will do this position, as it has come naturally to-me, and is the right variety of philanthropy with Valentine's and Volunteering.

I also will work on a Garden with Amanda Koci Max, and care for my Mother*.

Compass* & Aperture',... vs. Society & Indiv., and 'branching predicate Markov-chain'.

**Litmus Test*, and Hume's Fork Diagnostic, **Law*, **Language*, **Programming*, **Device*.

The Painleve Property of a Singular Manifold need(s) to be updated to Bianchi-Space.
