Thus, of the relationship of a multiplicity of directions, in relation to a scalar-curvature (for which 'propel(s)' in orchestration) - the electromagnetic mass-energy-tensor is diagonal in the basis of gravity, for that of (which) - it is perpendicular (of a different direction) - in relation to the cross-diagonal term, that of the non-commutativity.... Thus, it is an equivalent gap no matter the direction in relation to the magnet.
